Thank you for responding. I will be attending the council meeting tonight. I made mention of the contact because that was what I was told.

Yes, it is best to have more discussions.

Again, I appreciate your prompt response.

Cynthia

Hi Cynthia –

1) I will set up a meeting to discuss the options of repayment. Generally, I discuss options with the Finance Office at Walker River which Marie Ortesi and I did briefly by phone (on 4/6/2016), but this was not the main issue of the call. However, a meeting would be good to discuss with all parties to understand the options.

2) EPA has not made any contact with Tad Williams.

3) I just received your vm of 4/14/2016 (today) from 2:26pm. I was in meetings in the afternoon and just getting back to my desk.

Please look for a meeting request next week. If you have any further questions, please contact me.

On a separate note, thank you for being so diligent in working with me...and that EPA was able to turn around your grant award fairly quickly.

Thanks,

Renee Chan

Subject: Re: Revised Final MDL for Audit: "Walker River Paiute Tribe Needs to Improve Its Internal Controls to Comply with Federal Regulations", Report N. 15-2-0165

Good Afternoon,

I have not been successful with reaching EPA in regards to what I hope will be discussions to follow up Chairman Sanchez's request of me. It is very important for us to have the best clear understanding to deal with the Final Management Decision Letter we received on April 12, 2016.

Yesterday, April 13, 2016, I had discovered through discussion with Kathy Frazier, Walker River Finance Director my directive from Chairman Sanchez to respond, needed further documentation and conversation between parties. We were not aware of the conversation between Ms. Frazier and EPA of 04/06/2016. We learned EPA had contacted Tad Williams.

What I need to convey to all is the fact that in this process I have some concerns about what is expected of Walker River Paiute Tribe. I did not know EPA contacted Tad Williams, previous Environmental Director.

EPA identified Walker River two staff with the IGAUDIT Roy Begay and Gina Wachsmuth, but failed to identify Tad Williams, previous employee who is the responsible party for Recommendation 2: Recover the unsupported amount of \$103,432 for noncompliant timekeeping practices, unless the Walker River Paiute Tribe can provide adequate supporting documents. (This is noted since EPA has had conversations with Mr. Williams)

EPA Response: The Tribe submitted documentation but the documentation was not sufficient to support the questioned costs of \$103,432. As a result, the Tribe must submit \$103,432 to EPA.

For us going forward, this causes concern, jeopardizes our funding and has increased burdens for our responsibilities to the GAP Grant, knowing how much work has been completed for past deliverables.

We are hopeful you will be contacting us for further clarification. We appreciate your continued support.

Best Regards,

Cynthia Oceguela
